

Abstract

We are hoping to teach students about the First Peoples in Canada, to foster cultural diversity, and to encourage respect for others. We want to introduce young people to the world of Indigenous literatures through multimodality while at the same time satisfying ELA 2 competencies. By offering cross-curricular competency opportunities, we can help create a community of students who care about all members of society and who will learn to use media in a responsible way. Cross-curricular opportunities exist between ELA, Social Studies, Media Visual Arts, and ERC.
